

EVENING HERALD 17/11/06

## The truth at last?

SO NOW we know! A cinema, 10-pin bowling, housing and a hotel to fund the Life Centre! A bigger commercial footprint on Central Park, so less space for sports facilities and recreation?

The answer to parking and traffic problems: re-engineer Milehouse Junction (which works well already) and move the successful park-and-ride to Saltash: also, a proposed new grand entrance through mature allotments in Peverell Park Road. It's all in the Central Park Action Plan, on which you can comment. Please do.
